

ASEAN'S Largest International Machine Tool and Metalworking Technology  
Trade Exhibition and Conference  
23<sup>rd</sup> Edition

19. – 20. November 2009 BITEC Bangkok Thailand

**"METALEX"** is the event of the manufacturing industry where 2,700 providers of metalworking technologies and machine tools from 50 countries seize the guaranteed business opportunities the show offers by using this largest event of its kind in ASEAN as the launch pad for their 4,000 innovations. METALEX brings sellers to get in direct contact with 55,000 regional masterminds and power groups in manufacturing.

Located in the heart of ASEAN, the magnet of global foreign investment, METALEX sets future industrial trends in terms of policies, investment, and commercial, and has become the industrial icon that all industry professionals must participate. This year, MEALEX 2009, under the theme of "All About Metalworking. Everything About Excellence.," is an all-under-one-roof technology hub where the visitors expand their horizons while learning, networking, and matchmaking in concurrent knowledge-based "METALEX Conference" and a high-profile "METALEX Congress" and improve their working competency in METALEX's concurrent activity: "Welding Competition."

It is where ideas are born, relationships are forged, and business gets done.
